Index for the First Ten Years of *VPN-VPR*

Bruce A. White

This index covers the first ten volumes of the Victorian Periodicals Newsletter. I have continued the practice of using volume numbers in parentheses throughout, although only issue numbers were used until December 1973. The numbering of the first six volumes is as follows:

(I)1, (I)2, (I)3;
(II)4, (II)5/6;
(III)7, (III)8, (III)9, (III)10;
(IV)11, (IV)12, (IV)13, (IV)14;
(V)15, (V)16, (V)17, (V)18;
(VI)19, (VI)20, (VI)3/4.

The index is divided into three sections: titles of journals, names of individuals, and subjects. Volume numbers in parentheses are followed by issue and page numbers. For example, (II)4:24 indicates page 24, fourth issue of volume 2. Double issues are indicated by a slash: (II)5/6:19. Pages that are not numbered are enclosed in parentheses, as in (IX)1:(37), where "page" 37 is the inside of the back cover. Pages with reduced copy on them are treated in two ways, depending upon whether the pages are numbered: (VI)20:(30)64 indicates a reduced page 64 on what would be page 30; (VI)20:36/4 indicates a reduced page 4 on page 36.

There are approximately 2500 journal titles. These are not italicized or underlined, in order to make them more legible. The following abbreviations have been used to conserve space:

Chr.	= Chronicle	Obs.	= Observer
Gaz.	= Gazette	Proc.	= Proceedings
H.	= Herald	Q.	= Quarterly
I.	= Independent	R.	= Review
Ill.	= Illustrated	Reg.	= Register
J.	= Journal	Soc.	= Society
M.	= Magazine	Std.	= Standard
Mer.	= Mercury	Trans.	= Transactions

There are approximately 3800 individual names or pseudonyms listed, but it should be emphasized that some individuals are represented by more than one entry. I have been conservative in grouping data under common names, prefering redundacy to errors of judgment in deciding whether two entries varying only in an initial, for example, should be combined. (N.B.: Because the names have been sorted by software, the alphabetizing is strictly mechanical. Thus, Le Fanu appears before Leader, MacColl appears before Macaulay, and O'Dowd appears before Obbign.)

I would be grateful for notices of errors, both minor and egregious, and will be glad to reply to queries. Requests for key word searches among journal titles will be honored, although response time will depend upon the number and extent of requests received. Critical suggestions for future indexers of Victorian Periodicals Newsletter/Review are also solicited.
